

the bill. I thank my Republican colleagues on the Health Subcommittee, including Ranking Member MCMORRIS RODGERS, Ranking Member GUTHRIE, and Dr. BURGESS for working closely with me on this bill over the last several weeks.

This manager's amendment makes sure that the structure of ARPA-H will help the Agency achieve success. Specifically, the amendment requires: First, two-thirds of the ARPA-H program offices be exclusively dedicated to research and development; number two, not more than 15 percent of the ARPA-H budget to be used on administrative expenses; and, thirdly, removes the requirement of Senate confirmation of the ARPA-H director.

I think these are commonsense provisions that improve the bill and, ultimately, strengthen ARPA-H and its mission; and it is why I urge my colleagues to support this amendment.

Mr. Speaker, I yield back the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I claim the time in opposition, even though I am not opposed to the bill.

The SPEAKER pro tempore. Without objection, the gentleman from Kentucky is recognized for 5 minutes.

There was no objection.

Mr. GUTHRIE. Mr. Speaker, the Chair of the subcommittee kind of went through what the amendment says. Another thing that we need to make sure is reinforced is that the amendment would ensure that agency and precious U.S. taxpayer dollars can never go to nondomestic recipients organized under the laws of a covered foreign entity as defined by the National Security Act of 1947. This includes China, Russia, Iran, and North Korea. So I want to make sure we understand that.

I said this on the debate on the bill that the Chair and I were talking back and forth. And I understood the mission of what we wanted to accomplish with ARPA-H, but I was concerned about the application of it and how it would actually be put into place. We had a lot of discussions based on that.

This amendment really does define as best as we can define in legislation, without vague terms, what we want ARPA-H to do. This amendment ensures that 85 percent of the money goes to research and not to administration and growing an agency. We think that this really does narrow and, as we said earlier, put guardrails. This amendment is what accomplishes that with the bill. I am for this amendment, and I encourage its adoption.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to the rule, the previous question is ordered on the bill and the amendment offered by the gentlewoman from California (Ms. ESHOO).
